**Hello everyone!**

I will not waste the jury's time with a big amount of information, everyone already knows that I have been actively involved in the development of the project from the very first day of launch.

At AIBC, I have already confirmed 6 meetings with major partners, including the current sheikh of the neighboring emirate.

For 2016-2018, I attended more than **40 major** blockchain events and independently **organized 5**. In Moscow, probably there are no organizers of crypto events who would not know me, I am sure many of them will be in Dubai as well.

Blockchain evangelist 8+ years, business strategy and development. Chief Operation Officer in **Analytics Group** (Power BI Analytics & IT Integrations), co-founder of **HypeCity Moscow**, **NFT-Agency** founder, **Free TON Community Validator**
